Schneider **LUNE D2W**

Mirror cabinet and illuminated mirror

reddot winner 2023

Diameter 74 cm / Depth 15 cm

Dim2Warm function,  
from daylight white (6500 Kelvin) to candlelight (2000 Kelvin)

## Schneider **LUNE D2W**

Our aim was to design a round mirror cabinet and illuminated mirror that captivates with a clear form and high-quality materials and creates an atmospheric ambience in the bathroom as an expressive counterpoint.

We took inspiration from the eclipse – the moment at which the moon passes completely in front of the sun, leaving only a thin halo of light visible.

The result is Schneider **LUNE D2W**.

The frame of LUNE is made of stainless steel. The surface is available in brushed stainless steel, matte black or matte brushed gold.
