

## ADVANCED *Line Comfort TW*

The next generation of the successful **ADVANCED Line** is here. With its doors projecting slightly from the frame, it appears to float in the bathroom – an impression that is further reinforced by the indirect light.

### Indirect light for effortless elegance

Inside, a dimmable LED strip light fully illuminates the **ADVANCED Line Comfort**. For the first time, this light also provides indirect illumination, giving the bathroom an even more effortlessly sophisticated look.

### Hidden light source

Outside, the light behind the mirror also shines indirectly around the cabinet, providing even, glare-free illumination of the room and your face. The adjustable light colour allows you to change the ambience at will – from a romantic candlelit mood to invigorating morning light.

- Dimmable tunable white LED strip light inside
- Light colour adjustable inside and out, from candlelight yellow (2000 K) to bright daylight (6500 K)
- Separate on/off switch for internal and external light
- Also available in black with mirrored back panel

### Colour

White

Black

### Strip light

Circumferential strip light inside generates unique, indirect lighting effect.

### Light functions
