

ADVANCED *Line Superior HCL*

ADVANCED *Line Superior HCL* is the first flush-mounted mirror cabinet from Schneider.

With refined restraint

It can be installed in any wall, from GIS installation systems to brick and drywall partitions. With its refined restraint, it meets the highest aesthetic standards for bathrooms. The backlit handle niche radiates discreet light and makes opening the mirror cabinet particularly comfortable and convenient.

Light adapted to the time of day

The Human Centric Lighting (HCL) function supports biologically effective lighting: the light adapts to the user's biorhythm, meeting different needs at different times of day.

ADVANCED *Line Superior HCL* emits the right light for every activity – from make-up application to shaving through to relaxation. The light colour can be adjusted from candlelight (2000 K) to daylight (6500 K) using the app or membrane keypad.

Colour

Grey

App

Convenient control of lighting functions using the integrated membrane keypad or via app.

Opening the cabinet

Optimum cabinet opening thanks to backlit handle niche.

Properties:

Dimmable

Mirror cabinet with adjustable light brightness.

Tunable White

Adjustable light colour – from warm candlelight to cold make-up light.

Human Centric Lighting

Adaptable lighting – from minimal lighting for orienting at night to make-up lighting in the morning.

App

Change the light colour and brightness for each time of day via app.

Continuously adjustable glass shelves

The beloved Schneider system featuring continuously adjustable glass shelves.

Installation frame

Can be installed in a flush-mounted version with a dedicated installation frame and box.

Indirect light

Glare-free light radiates upwards or downwards.

Direct light

Direct light shines on the beholder and illuminates the face.

ADVANCED *Line Superior HCL*
