

ADVANCED *Line Ultimate TW*

The **ADVANCED *Line Ultimate*** illuminated mirror offers almost everything that the eponymous mirror cabinet does: **shadow-free, glare-free, natural lighting with indirect, dimmable light in a choice of light colours.**

Shadow-free, indirect light

The only difference: this is just an illuminated mirror, with no cabinet. Because of this, it protrudes less from the wall and its appearance is even more delicate and light. The indirect arc of light generates the perfect lighting to evenly illuminate your face and the room in a flattering way, without casting any annoying shadows.

Dimmable light and adjustable light colour

Thanks to the dimmable tunable white light feature, the light colour can be changed according to your mood, from warm to cold and from romantic candlelight to bright daylight.

Colour

 
Anodised Black

Lighting functions

Convenient control of lighting functions using the integrated membrane keypad.

Arc of light

Indirect arc of light for glare-free illumination of the room and your face.

Properties:

Dimmable

Mirror cabinet with adjustable light brightness.

Tunable White

Adjustable light colour – from warm candlelight to cold make-up light.

Swiss made

Planning, design and manufacturing takes place entirely at the factory in Flums.

Sustainability

All mirrors are made of 100% recyclable aluminium.

Indirect light

Glare-free light radiates upwards or downwards.

Direct light

Direct light shines on the beholder and illuminates the face.

ADVANCED *Line Ultimate TW*
