

DAILY Line Ultimate TW

Illuminate your room with bright, white light. Immerse your bathroom in the warm glow of a day spa. Tunable White adjusts to your mood.

Elegance in perfect light

There are mirror cabinets whose light is simply never quite right. In the morning, they dazzle with overly bright light, when you are heading out for the evening, you find the illumination is not uniform, and before you go to bed, the light is too cool. And then there is DAILY Line Ultimate TW. With its Tunable White function, the mirror cabinet combines extremely convenient lighting functions for any time of day in an elegant cubic housing with a luminaire positioned above the mirror.

Tunable White: controlling the light colour

The light colour can be controlled using the membrane keypad inside – from candlelight white (2000 K) to daylight white (6500 K). This allows you to easily adjust the light to your mood and your current activity. For a relaxing bath, you choose a warm, romantic light – and for a perfect shave, you illuminate the room brightly.

Colour

White

Light colours

Dimmable tunable white LED strip light, light colour from candlelight (2000 K) to bright daylight (6500 K).

Lighting functions

Convenient control of lighting functions using the integrated membrane keypad or via app.
