

PREMIUM *Line Ultimate HCL*

PREMIUM *Line Ultimate HCL* is surrounded by a narrow LED light frame, which gives distinction to the unmistakably elegant design.

Perfection in a rhythm of its own

The Human Centric Lighting (HCL) function supports biologically effective lighting: the latest LED technology automatically adapts the light to the user's biorhythm, meeting different needs at different times of day.

The consummate mirror cabinet

PREMIUM *Line Ultimate HCL* sets the standard in the superlative class of mirror cabinets. The light can be steplessly dimmed and the light colour can be easily adjusted – from candlelight (2000 K) to bright daylight (6500 K). The ambience is transformed at the touch of a button, supporting any activity in front of the mirror, such as application of make-up, shaving or styling of hair.

With its wide range of control options, PREMIUM *Line Ultimate HCL* gives architects and users latitude in personal lighting design, guaranteeing unparalleled comfort and convenience.

Colours

Anodised Black

Door handles

Easy opening thanks to integrated door handles.

App

Convenient control of lighting functions using the integrated membrane keypad or via app.

Properties:

Dimmable

Mirror cabinet with adjustable light brightness.

Tunable White

Adjustable light colour – from warm candlelight to cold make-up light.

Human Centric Lighting

Adaptable lighting – from minimal lighting for orienting at night to make-up lighting in the morning.

App

Change the light colour and brightness for each time of day via app.

Continuously adjustable glass shelves

The beloved Schneider system featuring continuously adjustable glass shelves.

Recessed mounting

The mirror cabinet can be installed in the wall for less protrusion.

Indirect light

Glare-free light radiates upwards or downwards.

Direct light

Direct light shines on the beholder and illuminates the face.

PREMIUM *Line Ultimate HCL*
