

## STYLE *Line Superior LED*

**STYLE *Line Superior* is the round illuminated mirror that combines the best of both worlds: indirect light creates an atmospheric ambience, while the direct light simultaneously illuminates your face with no glare.**

### Simple design, round and on-trend

The combination of direct and indirect light in a round illuminated mirror makes STYLE *Line Superior* the ideal choice for rooms such as a guest WC. With its round shape, which is as on-trend as the simple, pared-back design, it makes a real style statement.

### Ideal for a small bathroom

Combined with a main switch on the wall, STYLE *Line Superior* eliminates the need for an additional light source in a small to medium-sized bathroom. The best LED quality currently on the market keeps energy consumption to a minimum.

- Connect to the mains to operate via a wall switch
- Ideal for small and medium-sized bathrooms or guest WCs
- Available in light colours 4000 Kelvin (neutral white) or 3000 Kelvin (warm white)

### Colour

White

### Illuminated mirror

Round illuminated mirror with direct and indirect light

### Properties:

#### 3000 K

Pleasantly warm, white light ideal for everyday bathroom lighting.

#### 4000 K

Cool, white light ideal for brightly lighting your bathroom and face.

#### Indirect light

Glare-free light radiates upwards or downwards.

#### Swiss made

Planning, design and manufacturing takes place entirely at the Swiss factory in Flums.

#### Direct light

Direct light shines on the beholder and illuminates the face.
