

STYLE *Line Ultimate LED*

STYLE *Line Ultimate* is a round illuminated mirror unlike anything the world has seen before. In standard mode, it emits a soft, indirect light – ideal for brushing your teeth, or in a cloakroom, for instance and it boasts a clever added feature.

One gentle press for direct light

Press lightly on the LED light arc behind the mirror. Instantly, the arc of light moves gently upwards, to shine directly on your face: perfect for applying make-up or shaving.

Inviting in any room

With its dual-zone light, STYLE *Line Ultimate* works beautifully anywhere: in the bathroom, above the dressing table in a bedroom – or in a hallway as a mirror that welcomes guests and household occupants with an inviting light.

- World premiere: round illuminated mirror with indirect light and lowerable direct light
- Indirect illumination from LED strip light running behind the mirror
- Available in light colours 4000 Kelvin (neutral white) or 3000 Kelvin (warm white)

Colour

White

Arc of light

LED arc of light for direct light, gently press to raise and lower.

Properties:

3000 K

Pleasantly warm, white light ideal for everyday bathroom lighting.

4000 K

Cool, white light ideal for brightly lighting your bathroom and face.

Indirect light

Glare-free light radiates upwards or downwards.

Swiss made

Planning, design and manufacturing takes place entirely at the Swiss factory in Flums.

Direct light

Direct light shines on the beholder and illuminates the face.

STYLE *Line Ultimate LED*
