

## TRI Line LED

**TRI Line LED is the perfect illuminated mirror for today's architecturally austere apartments. It is suitable for guest bathrooms as well as for entryways and dressing rooms.**

### Direct and indirect light

Two narrow strip lights, integrated laterally into the rectangular mirror, emit both indirect and direct neutral 4000 K white light and optimally illuminate the surroundings and the face.

### The illuminated mirror with integrated sound system

However, TRI Line LED is not only an illuminated mirror; it can also function as an invisible sound system. Connected via Bluetooth to your devices, it delivers rich stereo sound in hi-fi quality for your morning shower or a relaxing bath in the evening.

### Colour

White

### Integrated sound system

The optional Bluetooth sound system in hi-fi quality connects to a bluetooth device, turning TRI Line LED into a visual and acoustic highlight.

### Properties:

#### 4000 K

Cool, white light ideal for brightly lighting your bathroom and face.

#### Indirect light

Glare-free light radiates upwards or downwards.

#### Swiss made

Planning, design and manufacturing takes place entirely at the Swiss factory in Flums.

#### Direct light

Direct light shines on the beholder and illuminates the face.

#### Sustainability

All mirrors are made of 100% recyclable aluminium.\*

#### Hi-fi sound system

Bluetooth sound system can be connected to your smartphone.

\* 100% of our aluminium profiles are based on recycled aluminium. This has a used material content of approx. 80%.

## TRI Line LED

### Product details

<b>Frame</b>	High quality aluminium profile, white design
<b>Mounting</b>	Surface mounting, vertical
<b>Mirrors</b>	Outside, with 1 light band on left and right side
<b>Lighting</b>	LED 4000 K, switch left below
<b>Protection class</b>	IP24, models with sound system IP20
<b>Energy efficiency</b>	Contains light sources of class A++ (new scale: D)
