

Bathroom planning guide with a focus on Schneider mirror cabinets & illuminated mirrors

In 4 steps to your new bathroom. Functional, aesthetic, and future-proof.

1. Goals & Budget

Good planning begins with clarity.

- ☐ Define the renovation goal: modernization, comfort, accessibility
- ☐ Analyze the existing room situation: what remains, what should change?
- ☐ Set the budget (including a buffer for unexpected costs)
- ☐ Choose a style direction: e.g. minimalist, natural, sensual
- ☐ Plan a replacement bathroom or temporary solution for the renovation period

2. Space planning & technical basics

The better the room is thought out, the smoother the implementation.

- ☐ Measure the room: width, height, depth – especially above the washbasin
- ☐ Check existing water and electrical connections
- ☐ Analyze lighting conditions (daylight, artificial light)
- ☐ Define space for mirror cabinet or illuminated mirror (flush-mounted)
- ☐ Consider storage space and freedom of movement
- ☐ Check materials for moisture resistance and maintenance effort

3. Combine expertise & design

Technology and design go hand in hand – now it is worthwhile to consult professionals.

- ☐ Discuss ideas and plans with a plumbing company or bathroom planner
- ☐ Align materials, colors, and lighting concept
- ☐ Test samples and lighting effects under real conditions
- ☐ Offerten einholen und Qualität, Garantie sowie Service vergleichen
- ☐ Coordinate planning with the trades involved (plumber, electrician, tiler)

Notes:

4. Product selection & implementation

Now it gets concrete. Time for your personal Schneider solution.

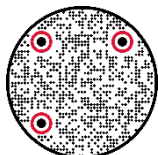

- ☐ Choose a Schneider mirror cabinet or illuminated mirror
 - Define shape, lighting, features, and design line
- ☐ Pay attention to functionality: sockets, interior lighting, light adjustment
- ☐ Check lighting technology and control (e.g. Tunable White, D2W, app control)
- ☐ Record detailed specifications: model name, dimensions, color, accessories
- ☐ Give the "go for execution." All parties start with clear instructions:
 - Specialist retailer: material ordering & delivery
 - Plumber: installation & connections
 - Electrician: power supply & control
 - Tiler: wall preparation

The Schneider desired mirror is defined:

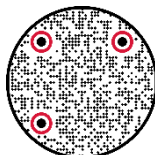

Haven't made a decision yet?
